EDUCATION

MIT ADT UNIVERSITY

BTech in Computer Science, GPA: 7.64/10

Pune, IN
Expected Aug 2025

AIR FORCE SCHOOL

CBSE - 12th, Percentage-84.8 %

Pune, IN
Feb 2021

SKILLS

Programming Languages – Python, SQL, JavaScript

Machine Learning & AI Frameworks: LangChain, LangGraph, TensorFlow, PyTorch, Scikit-learn,

Software Technologies – Node, React, React Native, NextJS, Docker, Git, FastAPI

Data Technologies – Databases: PostgreSQL, MySQL, MongoDB, Firebase

Vector Databases: Qdrant, FAISS, Pinecone

EXPERIENCE

1. GTARANG ENGERGY SOLUTIONS

Jan 2025 – July 2025

AI INTERN

Collaborated with the R&D team at GTarang, a deep-tech firm specializing in Robotics, AI, and Satellite Systems, to develop an **internal monitoring and analytics tool for streamlining operations**. Led the design and implementation of a chatbot interface powered by a custom **Small Language Model (SLM) using LangChain and Gemini**, enabling team members to query internal workflows, documents, and energy datasets in natural language.

2. MIT ADT

Jan 2024 – May 2024

SMART CITY BUS MONITORING SYSTEM

Collaborated in a 5-member team under PKC to design and implement a **Smart City Bus Monitoring System** aimed at enhancing urban transportation efficiency. Led efforts in **data analysis and algorithm development**, working with **route optimization, passenger flow prediction, and revenue forecasting**.

PROJECTS

1. [GTarang Energy Solution](#)

- Designed and developed a dynamic website for GTarang Energy Solutions, a leading deep-tech consulting firm specializing in Robotics, AI, Warehouse Automation, and Satellite Systems. chatbot integration powered enabling users to interact and get real-time information about GTarang's services and innovations. (**NextJS, Gemini, LangChain**)

2. [Insight-AI](#)

- Developed Insight AI, an interactive AI chat platform with real-time responses and web search integration. Powered by Gemini and built with Next.js, it provides seamless, up-to-date information through dynamic conversations. (**NextJS, Gemini, Langgraph, Tavily**)

3. [ChaiDocs RAG](#)

- Built CHAI Docs RAG**, an AI-powered documentation assistant for HTML, Django, and SQL, it enables contextual Q&A via a clean Streamlit interface. Automatically indexes and retrieves content from web-based docs, delivering accurate, source-linked answers through Retrieval-Augmented Generation. (**LangChain, Gemini, Qdrant, Streamlit**)

CERTIFICATIONS

1. EXPLORATORY DATA ANALYSIS FOR MACHINE LEARNING WITH HONORS

- Gained knowledge of Exploratory Data Analysis and generate inferences from visualizations. in Machine Learning using Python libraries. (**Python, Pandas, Matplotlib, Numpy, Seaborn, sklearn**)

2. AZURE AI FUNDAMENTAL

- Gained foundational knowledge of Azure AI services, including computer vision, natural language processing, and conversational AI tools offered by Microsoft Azure.
